

Here at DNR, we're changing how we communicate with hunters. New for Fall 2018, the Hunt Wild Wisconsin mobile application has everything you need.

Click a link below based on whether you're an Apple or Android user and go straight to a free download page! Or, check out the app's page on our [website](#) at keywords "[hunt app](#)."

- [Hunt Wild Wisconsin App for Android](#)
- [Hunt Wild Wisconsin App for iPhone](#)

For users with Android phones, it is important to note that this app is primarily intended for Android versions 8.0 and above. Android phones with version 7.0 may not have access to some mapping capabilities within the app and Android versions 6.0 and below will be unable to install the application – this is to help ensure a quality experience for our users.

Click the image below for the official app tutorial.

The Only Hunting App You Need! Hunt Wild Wisconsin Mobile App Tutorial

The Hunt Wild Wisconsin mobile app has tons of features that will help improve your time in the blind:

- Build your experience based on what you hunt – Hunt Wild Wisconsin tailors mapping and regulations features based on which species you plan on pursuing – everything from zones to season dates
- Heading into the backcountry? You can access satellite and topographic maps,

public land boundaries and regulations with (or without) a cell signal

- Tailor the map to your hunt – save your favorite hunting location or feature of interest
- Found a new hunting spot? You can save your trails for those early morning walk-ins
- You'll never have to "guess" again - shooting hours are automatically determined by your location
- Easy to read summary of regulations, all in one place – everything you need to know, right in the palm of your hand with or without a cellular connection
- Access to your GoWild account allows you to purchase new hunting licenses, tags, and permits
- Off the Record Podcast – listen in the truck, on your walk in, or pass time in the blind
